

REPORTS

2024 - Qualitative study on information needs and preferences of decision-makers regarding RedETS products 	>
2024 - Extracorporeal Membrane Oxygenation for out-of-hospital Cardiac Arrest 	>
2024 - Efficacy and safety of mindful breathing for the treatment of different clinical conditions 	>
2023 - Ovarian tissue cryopreservation and transplantation in patients with cancer or benign diseases to fertility preservation 	>
2023 - Safety of the use of nonabsorbable polymer locking clips in laparoscopic living donor nephrectomy 	>
2023 - Evaluation of the lung cancer screening program 	>
2023 - Renal sympathetic denervation for the management of resistant hypertension 	>
2023 - Early detection tools for emotional distress in adult people with cancer 	>
2023 - PICC line insertion by navigation system and confirmation of the catheter tip by intracavitory electrocardiogram 	>
2023 - Coronary sinus flow-reducing device in the treatment of refractory angina 	>
2022 - Effectiveness and Safety of Convalescent Plasma Donor Therapy in the Treatment of COVID-19 	>
2022 - Conductive intravesical chemohyperthermia with Mitomycin in non-muscle invasive bladder cancer: guideline review and ongoing research 	>
2022 - Radiofrequency ablation for treatment of symptomatic uterine fibroids 	>
2022 - Bronchial Thermoplasty in Severe Asthma 	>
2021 - Newborn screening for classic congenital adrenocortical hyperplasia. Summary 	>
2021 - Varicose Veins: Thermal Ablation and cyanoacrylate closure. Summary 	>

2020 - Effectiveness and safety of the left ventricular assist device (LVAD) as destination therapy in paediatric patients >

2020 - Irreversible electroporation for the treatment of liver and pancreatic cancer >

2020 - Treatment of benign thyroid nodules by thermal laser or radiofrequency ablation >

2019 - Diagnostic accuracy and clinical utility of PET/CT amyloid in mild cognitive impairment >

2019 - Gait speed as predictor of frailty >

2019 - Laser or radiofrequency ablation in the treatment of recurrent thyroid cancer >

2025_Asesment of artificial intelligence´s diagnostic yield and security in cardiac monitoring using insertable cardiac monitors >
